

COVID-19 Drive-Up Testing Center Instructions

Do NOT eat, drink, smoke or chew gum for 30 minutes before collecting the sample.

Fill the tube with saliva to the level of the black wavy line (not including bubbles).

Do not overfill.

Remove the funnel from the tube.

Screw the enclosed cap TIGHTLY until the blue solution in the cap empties into the tube.

Shake the tube gently for 5 seconds.

Wipe the entire outside of the tube and cap with the alcohol pad and dispose of the pad.

Place tube in the bag.

- Please read the instructions above and follow the step-by-step instructions.
- All paperwork in your bag should be filled out and remain in the bag.
- All barcode stickers should be left in the bag.
- Once the test sample is collected, please drop it in the drop-off bin outside the Korean Long Term Care building.
The container is labeled "COVID-19 Saliva drop off."
- Your results will be posted to your patient portal in 24 – 48 hours.

Instructions for how to access your results are found on the reverse side of this page.

After you set up your portal, an email from Syntellis will notify you when your results are available.

Results will be available in the portal the day after your test. Someone from the hospital will call you **ONLY IF YOU TEST POSITIVE.**

Once In the Patient Portal:

- HEALTH RECORDS**
Lab results, medications and more
- MESSAGES**
Message your Providers or Care Team
- DOWNLOAD MY DATA**
Export or Download Health Data
- ADDITIONAL SERVICES**
Pay bills and other services

To access results and view all tests, Click on "Health Records"
